

THE GREAT BRITAIN

FEATURING:

HOURS

MINUTES

SECONDS

“In 2013 I had the honour of being appointed an Ambassador of the GREAT Britain campaign. I created the GREAT Britain as a unique piece to celebrate British innovation and technology around the world. Based on my Series 2 watch, it is best known for having perhaps the most complex dial ever made by hand and a movement which is one-of-a-kind.”

ROGER W SMITH

MOVEMENT

A unique piece - the one-of-a-kind mechanism has been designed specifically for the GREAT Britain.

- Three dimensional movement architecture
- Manually wound
- 3/4 plate with floral hand engraved raised barrel bridge, fitted with the Isle of Man's Triskellion symbol and two applied sterling silver cartouches engraved GREAT Britain and MMXIII, both secured with blued screws
- Single wheel Daniels Co-axial escapement developed by Roger W Smith
- Free sprung balance
- 23 jewels
- Gilded and frosted hand engraved plates
- Red gold chatons and cocks
- Screws, flame blued to a purple and blue hue

DIAL & HANDS

- Signed R. W. Smith and GREAT Britain
- Celebrating GREAT Britain, Roger W Smith designed a dial featuring an off-centre Union flag.
- Made from sterling silver with applied blued steel Roman numeral batons the multi-relief, three dimensional dial is comprised of some thirty-four individual parts.
